EXPERIENCE

**Gameplay
Programmer**
July 2022 - Now
**Junior Gameplay
Programmer**
May 2021 - June
2022

Ubisoft Blue Byte GmbH, Mainz
Since May 2021 I am working for Ubisoft Mainz on the Anno franchise. My first project was the Anno 1800 Console Edition which was released in March 2023.

**Founder /
Programmer**
2016 - 2021

MAJA Studios UG, Berlin
I started an indie game company with a good friend of mine. We self-published a game in 2019 with most of the production time going into the engine. The engine is browser based, capable of server-client multiplayer networking using server-based JavaScript including the nodejs and socket.IO libraries and uses the HTML5 Canvas element for rendering.

**Junior IT
Developer**
2015 - 2016

Thüringer Energie AG, Erfurt
After writing my bachelor thesis in the company, I developed web-based solutions for photovoltaic monitoring and room resource management. I was also responsible for the administration of multiple third-party software.

**Game
Programmer**
2008 - 2011

Rollgame, Staufen i. Br.
Having my first contact with game development, I solo created a text/image based browsergame for skaters. It got small regional attention, but I was not able to continue development after I started studying for my bachelor's degree.

EDUCATION

**Bachelor of
Science Degree**
2010 - 2014

Bauhaus-Universität Weimar

I got my bachelor's degree in Weimar studying Computer Science and Media. My bachelor thesis was about visualizing time-based log data of photovoltaic systems.

Abitur
2010

Faust-Gymnasium Staufen i. Br.

I finished the Abitur with Physics and English as my main subjects.

EXPERTIES

C/C++
C#
JavaScript
HTML5/CSS
Python/Lua

AWARDS

**VDE BMBF Special Award for Original
Innovations**
2009
jugend forscht regional winner
2009
